Family Welfare and Medical
Education
Government of Uttarakhand
4 -Subhas Road, Dehradun

Letter No : 172 / Sec-Health/COVID/2021
Dated : 17 May, 2021

Respected Sir,

As you are aware that Mucormycosis is emerging as a serious secondary infection encountered during the COVID 19 case management. In this regard, we thank your good offices for allocation of Amphotericin B drug which is the mainstay of treatment to Uttarakhand.

Since timely treatment of this fungal infection is very crucial to the proper case management and considering the recent surge in cases and the accessibility issues in the state, this is to request your good offices to issue necessary instructions for provision of 500 vials for immediate use of Amphotericin B to Uttarakhand so as to ensure adequate and timely treatment for our patients.

We shall be grateful for the same

with regards,

Yours Sincerely,

(Amit Singh Negi)

Sh. Surendra Kumar Bagde,
Additional Secretary,
Ministry of Chemicals and Fertilizers
Govt. of India
